

V-3201

2/2 way valve G 1"1/2

1. Description

This 2/2 way valve of simple and robust design can be used in a very large number of applications. Due to its high air flow capacity, it can easily be used, for example, as a discharge valve and in a lot of different applications requiring a two way valve. The main benefits of this 2/2 way valve are its high air flow capacity and its high reliability.

2. Advantages

- + Easy maintenance
- + Swiss quality

4. Technical Data

Reference	V-3201
Function	2/2 way valve G 1"1/2
Operating pressure	4 ... 40 bar
Maximum inlet pressure	40 bar
Nominal diameter	32 mm
Operating temperature	+5° ... +55° C
Inlet port size	G 1"1/2
Outlet port size	G 1"1/2
Maximum air flow	3600 [Nm ³ /h]
Materials	Body : Coated aluminium Piston & seal : Plastic, FDA compliant
Net-Weight	2.6 kg

5. Dimensions (mm)

D1	99 [mm]
D2	G 1"1/2
D3	G 1"1/2
D4	G 1/4"
L1	170 [mm]
L2	58 [mm]
L3	115.5 [mm]
L4	29.7 [mm]
A1	45 [°]
